

Second Step

Now we're going to create the database tables and fill them with some default data.

Finished!

Now you can [log in](#) with the **username** "admin" and **password** "ad9cc3".

Note that password carefully! It is a *random* password that was generated just for you. If you lose it, you will have to delete the tables from the database yourself, and re-install WordPress. So to review:
